

■ IntelliWell AI Executive Report

Generated: 01 August 2026 02:15

Well Information

Well	15/9-F-1 C
Field	VOLVE
Facility	MÆRSK INSPIRER
Forecast Date	2016-04-22
Forecast Days	1

AI Executive Summary

Predicted production is 0.72 Sm³/day. Overall well health score is 79.6%. Pressure condition is anomaly. -1 pressure anomalies are expected. Forecast confidence is 99.9%. AI Recommendation: Increase Monitoring.

Prediction Results

Predicted Production	0.72 Sm ³ /day
Production Score	100.00%
Pressure Status	Anomaly
Pressure Score	49.11%
Health Score	79.64%
Operational Status	Monitor
Forecast Confidence	99.90%

Smart Alerts

- Monitor: Well health is stable but requires observation.
- Pressure anomaly detected.
- Production is relatively low.

AI Action Plan

- Increase monitoring frequency.
- Inspect pressure trends during the next production cycle.
- Pressure anomaly detected. Verify sensor readings.

- Inspect annulus and downhole pressure.
- Production below expected level.
- Evaluate production optimization strategies.

Final Recommendation

Increase Monitoring
